Accessibility and inclusion in digital health

<https://www.open.edu/openlearn/health-sports-psychology/accessibility-and-inclusion-digital-health/content-section-0>

Course summary

In this free course, Accessibility and inclusion in digital health, you will consider some of the ways that people can access digital health in the UK and how they are able to take more control over their physical and mental health.

Learning outcomes

By completing this course, the learner should be able to:

- explain what is meant by digital health
- identify the contexts in which digital health is used
- evaluate some of the ways in which using digital health can give people greater control over their health.

Completed study

The learner has completed the following:

Section 1

Why create digital citizens?

Section 2

Accessing mental health in Wales

Section 3

Innovation in health at the beginning of life

Section 4

Digital health, children and young people

Section 5

Caring robots

Section 6

Digital health and the patient/professional relationship

Section 7

Conclusion
